Navarra Venues Postpones Events for One Month

To our valued Clients, Guests and Friends,

It is with a heavy heart, as Industry Leaders Navarra Venues has made the decision to postpone events up until Monday, April 13th, 2020.

The Australian Government, Wednesday, March 18, 2020, has suspended all non-essential indoor gatherings of greater than 100 guests which includes Weddings and Social functions. Navarra Venues in alignment with the current global pandemic has taken the stance under our duty of care for our guests and staff to postpone all current events for one month.

The safety and wellbeing of our guests and employees have always been and will remain our top priority. We will be contacting all of our clients individually, and we are doing our very best to accommodate our clients that have pre-existing bookings during this one-month phase. This will be reliant on upcoming information from the Government.

Navarra Venues has been at the forefront of the industry, and we feel deeply for our clients during this time. We would like to take this opportunity to thank everyone for their understanding and aim to keep everyone informed as we receive updated information and direction from the Australian Government.

We look forward to hosting your special events at Navarra Venues and our office will remain open for new booking consultations and current event coordination.

Thank you.

Management
Navarra Venues.
